### TITLE ESTABLISHED TO ATRISCO GRANT

Original Grantees Will Get Tract Containing Over 82,728 Acres

WILL BE PARTITIONED AT ONCE

The general land office at Washington, D. C., has just handed down a final decision in the famous town of Atrisco grant suit, which has been in the courts since 1885. By the decision just rendered the title to the town of Atrisco grant, comprising 82,728 acres, is restored to the original grantees, most of whom are now dead.

There was great rejoicing in Rancho de Atrisco yesterday when the news was received, and a big meeting was held, at which D. J. Metzger read the official document ordering the restoration of the immense tract to the original owners. Other speeches were made and resolutions drawn up expressing the gratification of the people, which resolutions will be sent to Washington.

Today the document was placed on file in the probate clerk's office at the court house. It is expected that the district court will soon take up the matter of partitioning this vast grant among the many descendants of the original grantees.

The present trustees of the grant are as follows: Manuel Antonio Jaramillo, president; Joe de la Luz, secretary; David J. Metzger, Severo Sanchez, Policarpo Armijo and Luz Armijo.

### THE CASINO

"A Pretty Persian" with its odd and ridiculous but elaborate costumes, its unique stage settings and witty dialogue, with enchanting musical numbers, held a big audience spellbound last night at the Casino. Although it was the first trial of the company with the opera, it started and finished with a swing and dash that carried the audience along with it. Miss Hutchison, in a pretty Persian gown and jewel-bespangled head dress, appeared in the title role to good effect. Her duet with J. C. Taylor in the first act was the musical treat of the performance.

Miss Kittle Nice was compelled to respond several times to the clever rendition of a solo with invisible chorus.

Brady and Burgess, Miss Mumford and Miss Thorne all had good parts and handled them well. Mr. Burgess ran out of encore verses early, and to quote his own words: "He's a bad poet."

Mr. Wade as Hullabloom, a professional bridegroom, who was wedded 157 times, was the real life of the "Pretty Persian," and was well characterized. Wade's song, "Johnny, My Old Friend," though a little musty with age, was as good as ever in mirth, and appealed to the audience.

The costume worn by Miss Thorne last night as the Prince, was one of the most stunning yet exhibited at the Casino.

The house was jammed at the initial performance and the bill should be a good drawing card throughout its run.

Try one drop of Schilling's Best lemon extract in half-glass of water.

Try how many drops of some other extract it takes to flavor as much.

### THE MARKETS

STOCK - MONEY - METAL - WOOD

Closing quotations Received by Levy Bros., Correspondents for Logan & Bryan, Barnett Building.

New York, Aug. 21.—The market closed irregular, but the tone at the close was strong and fairly active. The volume of business shows a decline, which can be accounted for the waiting attitude of peace negotiations between Russia and Japan. Among the active stock, Wisconsin Central and Reading stand out prominently.

We believe there is much merit in the bull side, and while the market will be subject to reactions from time to time, a higher level will gradually be reached. Total sales today aggregated 644,600 shares. Quotations:

#### (By private wire to Levy Bros.)

New York, Aug. 19.—The market has had a superficial advance during the last fortnight and prices are now so near the high records that it would not be surprising to see some reactionary movement set in. Such a movement would make the speculative position much healthier in every way and thereby greatly rebound to the future stability of the market. This is the only element of weakness which we see in the general situation and outlook at the moment. In consequence we believe greater caution should be exercised against overloading with too much stock and overstraining the market. It would be better in our judgment, at least, to secure a portion of profits and to wait for developments. Much is dependent upon a continuance of easy money on the settlement of the Russo-Japanese war in addition to the assurance of bountiful crops in order to realize the predictions which are now so general of ultimately higher prices and a boom in general business this fall.

### BRONCO BUSTING AND U. S. CAVALRY DRILLS

ARE ASSURED ATTRACTIONS AT THE TWENTY-FIFTH TERRITORIAL FAIR.

Close upon the return of Secretary Sellers from a successful trip to the Navajo reservation, where he secured a bunch of "Reds" for the fair, comes a letter from President W. H. Greer, who has been in the southern part of the territory at Apache Tejo, the headquarters ranch of the Victoria Land & Cattle company, saying that all arrangements had been made to have two cars of the worst outlawed southern ranges will produce in the way of horses, sent to the fair, with a bevy of cowboys to handle them. This assures broncho busting of the right kind.

To make complete the wild west attractions of the fair comes a letter from Lieutenant J. H. Lewis of Fort Wingate. In this letter, Mr. Lewis says that he has received orders from General McClasky to take a company of cavalry to the fair, and that he is complying with these orders by sending him here about September 17, with Troop H of the Fifth cavalry, and ninety horses.

The fair association is to furnish a site for the camp, fire wood and water. This site will probably be on the commons in the rear of W. W. Strong's new residence on West Railroad avenue, where it has formerly been located. The Indians will pitch their tepees near the tents of the soldiers. The location is just one-half block from the car line, and convenient to the city.

These are rounding up beautifully for a big fair.

#### HARVEY HOUSE FOR WILLIAMS

Ford Harvey, son of Fred Harvey, who established the Harvey system of eating houses along the Santa Fe railroad, spent yesterday in Albuquerque, and left last night for the west. Mr. Harvey was met at the Alvarado by Superintendents Steen and Jacobson, and Architect Williams, of San Diego, Cal., who is drawing plans for an eating house to replace the one destroyed by fire at Ash Fork. The Ash Fork building was discussed at a meeting of the Harvey officials in Mr. Stein's office in the lodge building in front of the hotel, but the most important subject to come up for consideration was the proposed new hotel at Williams, the junction of the main line with the Grand Canyon road.

This hotel will not be a large one, but one sufficiently large to take care of the Grand Canyon travel which will be built, and will be furnished and conducted up to the standard of other houses on the system.
